Using file, you can circumvent those limits without paying to upgrade your team chat service. If only we could, we surely would! On the other hand, using file can actually save you money. Simply upload your file and share the link. filehosting provides an easy possibility for you to send large files to your friends. The cost of that data transfer is covered by your internet service or the data plan on your phone. There are no restrictions on the number of times a file can be downloaded. You decide who you want to share your files with. Just upload the file you want to share with your friends and we send you a download link to your file. You don't need any special software installed to be able to download your files. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. You can give this download link to your friends by mail or instant messenger. We have no file size limit. Any file in any format can be uploaded and downloaded for free. Unfortunately, we can't make that part free. Alternatively you can choose to share your download links on blogs, forums and social networking sites. You can upload any type of file (movies, music, documents, images, zip files and more). No account or credit card is required to get started. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. So try our free and simple filehosting service now. File is free to use with no gotchas and no hidden fees. Files can be downloaded from any computer from our high speed servers. Keep your files private, or send your download links only to friends or family.
